Summary

Detail oriented frontend developer with 2 years working with HTML CSS and React.js. Experienced in building scalable and high performance applications while putting into consideration accessibility .

EXPERIENCE

Sweetch pay inc, delaware, USA— Frontend intern

AUGUST 2022 - PRESENT

Sweetch pay is a company that is dedicated to making P2P crypto payments easy and accessible to everyone

Things i contributed to the company :

- Designed beautiful and reusable UI components
- Collaborated with colleagues to refactor code, making it easy to build upon and integrate.
- Designed web pages and provided beneficial IT support and assistance to other employees; performed other duties as assigned by managers.
- Pro-actively participated in weekly team meetings and conducted reports on the projects' progress.

SKILLS

Proficiency in HTML and CSS

Proficiency in CSS preprocessors (SCSS) and Frameworks (Tailwind)

Understanding of responsive and mobile design

Proficiency in Javascript and React

Redux and ContextApi for state management

Understanding of web development process (design, develop, deploy)

Firebase

Framer motion for interactive animations

Git and Github for version-control

PROJECTS

CoinTrackk — Frontend, react.js

Cointrackk is an application where you can track prices and other of certain cryptocurrencies and read relative news about them

What i did while building this project;

- Designed interactive and reusable UI components with react.js
- Utilized contextApi and reducers for state management
- Utilized multiple api's to fetch real-time cryptocurrency data and news
- Utilized apexChartJs to display data

Link : <https://coin-trackk.netlify.app/>

Soft skills

Positive and well-organized, with excellent written and verbal communication abilities. Strong interpersonal skills as well as the ability to operate with little or no supervision required.

Home Hub — FullStack, react.js, Firebase

A real-estate web-app where you could see houses up for sale and rent. You could also contact landlords in regard to their listings. Registration to the website grants you access to be a host

What i did building this project ;

- Designed interactive and reusable UI components
- Utilized firebase to handle the backend and store necessary data authentication e.t.c
